INDEPENDENT AUDITOR'S REPORT

To the Shareholders and Board of Directors of NAFTA a.s.:

We have audited the accompanying financial statements of NAFTA a.s. (the "Company"), which comprise the balance sheet as at 31 December 2010, and the income statement, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Statutory Body's Responsibility for the Financial Statements

The Company's statutory body is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards as adopted by the EU, and for such internal control as the statutory body determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Companies' internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the statutory body, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of NAFTA a.s. as at 31 December 2010, as well as its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the EU.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

1. GENERAL

1.1. Description of Business

NAFTA a.s. (hereinafter "NAFTA" or the "Company") is a joint stock company based in the Slovak Republic. The registered office of the Company is in Bratislava at Votrubova 1. The Company was established on 1 March 2006 and registered in the Commercial Registry of the Slovak Republic on 16 March 2006.

NAFTA is involved in the underground storage of natural gas, hydrocarbon exploration and production, and geological works. Underground storage of natural gas is the primary source of revenue. The storage services are offered under transparent and non-discriminatory principles. NAFTA provides storage services mainly in the form of seasonal flexibility (injecting natural gas into underground storage structures during the summer, which is consumed during the winter) and supports security of supply. NAFTA stores gas for its clients Slovenský plynárenský priemysel a. s., RWE Transgas, a. s., GDF SUEZ s. a., E.ON Ruhrgas AG, VNG-Verbundnetz Gas AG, VITOL SA and other companies.

As of 31 December 2010, the Company's shares were held by SPP (56.2 %, EUR 60 217 thousand), E.ON Ruhrgas International AG (40.4 %, EUR 43 375 thousand), other minority shareholders (1.9 %, EUR 2 050 thousand), and NAFTA (treasury shares 1.5 %, EUR 1 593 thousand). The share of voting rights of the aforementioned shareholders equalled their shares in the registered capital of NAFTA.

1.2. Legal Basis for Preparing the Financial Statements

These financial statements are the ordinary separate financial statements of NAFTA for the accounting period from 1 January until 31 December 2010.

NAFTA met the quantitative criteria set by Slovak Act No. 431/2002 Coll. on Accounting in the accounting period from 1 January 2009 until 31 December 2009, under which it was required to change its accounting policy on preparing separate financial statements as of 1 January 2010 to International Financial Reporting Standards (IFRS) as adopted by the European Union (hereinafter the "EU"). Since the Company presented its financial statements under IFRS in previous years, there was no first-time adoption of International Financial Reporting Standards pursuant to IFRS 1.

The effect on the Company's equity, profit, and cash flows caused by the transition from the previous accounting procedures applicable in the Slovak Republic ("SAS") to IFRS is described in Note 22.

The accounting policies described in Note 3 were applied in preparing these separate financial statements and the comparatives stated in these separate financial statements.

1.3. Approval of the 2009 Financial Statements

The financial statements of NAFTA for 2009 under Slovak accounting regulations were approved by the Annual General Meeting held on 9 June 2010.

1.4. Comparatives

No reclassifications have been made to the comparative financial information.

2. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

The Company has adopted all of the new and revised standards and interpretations issued by the International Accounting Standards Board (IASB) and the International Financial Reporting Interpretations Committee (IFRIC) of the IASB that have been endorsed for use in the European Union and that are relevant to its operations and are effective for accounting periods beginning on 1 January 2010. The following amendments to the existing standards issued by the International Accounting Standards Board and adopted by the EU are effective for the current accounting period:

- **IFRS 1 (revised) "First-time Adoption of IFRS"** adopted by the EU on 25 November 2009 (effective for accounting periods beginning on or after 1 January 2010),
- **IFRS 3 (revised) "Business Combinations"** adopted by the EU on 3 June 2009 (effective for accounting periods beginning on or after 1 July 2009),
- **Amendments to IFRS 1 "First-time Adoption of IFRS"**- Additional Exemptions for First-time Adopters, adopted by the EU on 23 June 2010 (effective for accounting periods beginning on or after 1 July 2010),
- **Amendments to IFRS 2 "Share-based Payment" - Group cash-settled share-based payment transactions** adopted by the EU on 23 March 2010 (effective for accounting periods beginning on or after 1 January 2010),
- **Amendments to IAS 27 "Consolidated and Separate Financial Statements"** adopted by the EU on 3 June 2009 (effective for accounting periods beginning on or after 1 July 2009),
- **Amendments to IAS 39 "Financial Instruments: Recognition and Measurement"** - Eligible hedged items, adopted by the EU on 15 September 2009 (effective for accounting periods beginning on or after 1 July 2009),
- **Amendments to various standards and interpretations "Improvements to IFRSs (2009)"** resulting from the annual improvement project of IFRS published on 16 April 2009, adopted by the EU on 23 March 2010 (IFRS 2, IFRS 5, IFRS 8, IAS 1, IAS 7, IAS 17, IAS 18, IAS 36, IAS 38, IAS 39, IFRIC 9 and IFRIC 16) primarily with a view to removing inconsistencies and clarifying wording, adopted by the EU on 23 March 2010 (effective for accounting periods beginning on or after 1 January 2010),
- **IFRIC 12 "Service Concession Arrangements"** adopted by the EU on 25 March 2009 (effective for accounting periods beginning on or after 30 March 2009),
- **IFRIC 15 "Agreements for the Construction of Real Estate"** adopted by the EU on 22 July 2009 (effective for accounting periods beginning on or after 1 January 2010),
- **IFRIC 16 "Hedges of a Net Investment in a Foreign Operation"** adopted by the EU on 4 June 2009 (effective for accounting periods beginning on or after 1 July 2009),
- **IFRIC 17 "Distributions of Non-Cash Assets to Owners"** adopted by the EU on 26 November 2009 (effective for accounting periods beginning on or after 1 November 2009),
- **IFRIC 18 "Transfers of Assets from Customers"** adopted by the EU on 27 November 2009 (effective for accounting periods beginning on or after 1 November 2009).

The adoption of these amendments to the existing standards has not led to any changes in the Company's accounting policies.

At the date of authorisation of these financial statements the following standards, revisions, and interpretations adopted by the EU were in issue but not yet effective:

- **Amendments to IAS 24 "Related Party Disclosures"** - Simplifying the disclosure requirements for government-related entities and clarifying the definition of a related party, adopted by the EU on 19 July 2010 (effective for accounting periods beginning on or after 1 January 2011),
- **Amendments to IAS 32 "Financial Instruments: Presentation"** - Accounting for rights issues, adopted by the EU on 23 December 2009 (effective for accounting periods beginning on or after 1 February 2010),

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

- **Amendments to IFRS 1 "First-time Adoption of IFRS"**- Limited Exemption from Comparative IFRS 7 Disclosures for First-time Adopters, adopted by the EU on 30 June 2010 (effective for accounting periods beginning on or after 1 July 2010),
- **Amendments to IFRIC 14 "IAS 19 – The Limit on a defined benefit Asset, Minimum Funding Requirements and their Interaction"** - Prepayments of a Minimum Funding Requirement, adopted by the EU on 19 July 2010 (effective for accounting periods beginning on or after 1 January 2011),
- **IFRIC 19 "Extinguishing Financial Liabilities with Equity Instruments"**, adopted by the EU on 23 July 2010 (effective for accounting periods beginning on or after 1 July 2010).

The Company has elected not to adopt these standards, revisions, and interpretations in advance of their effective dates.

The Company anticipates that the adoption of these standards, revisions, and interpretations will have no material impact on the financial statements of the Company in the period of initial application.

At present, IFRS as adopted by the EU do not significantly differ from regulations adopted by the International Accounting Standards Board (IASB) except for the following standards, amendments to the existing standards and interpretations, which were not endorsed for use as of 31 December 2010:

- **IFRS 9 "Financial Instruments"** (effective for accounting periods beginning on or after 1 January 2013),
- **Amendments to IFRS 7 "Financial Instruments: Disclosures"**- Transfers of Financial Assets (effective for accounting periods beginning on or after 1 July 2011),
- **Amendments to various standards and interpretations "Improvements to IFRSs (2010)"** resulting from the annual improvement project of IFRS published on 6 May 2010 (IFRS 1, IFRS 3, IFRS 7, IAS 1, IAS 27, IAS 34, IFRIC 13) primarily with a view to removing inconsistencies and clarifying wording (most amendments are to be applied for accounting periods beginning on or after 1 January 2011).

The Company anticipates that the adoption of these standards, amendments to the existing standards, and interpretations will have no material impact on the financial statements of the Company in the period of initial application.

At the same time, hedge accounting regarding the portfolio of financial assets and liabilities, whose principles have not been adopted by the EU, is still unregulated. Based on the Company's estimates, application of hedge accounting for the portfolio of financial assets or liabilities pursuant to IAS 39: "Financial Instruments: Recognition and Measurement" would not significantly impact the financial statements, if applied as at the balance sheet date.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

The separate financial statements have been prepared in accordance with International Financial Reporting Standards as adopted for use in the European Union. For the purpose of preparation of the separate financial statements Company has applied exception from consolidation under IAS 27 "Consolidated and Separate Financial Statements" and the Company has not consolidated significant subsidiaries, joint ventures and associates. Accordingly, the significant subsidiaries, joint ventures, and associates are recognized at their cost less any impairment losses in these separate financial statements. The list of significant unconsolidated subsidiaries, joint ventures, and associates is described in the Note 5.

NAFTA has prepared and issued consolidated financial statements for the year ended 31 December 2010 that comply with IFRS. Such consolidated financial statements were issued separately and do not accompany these separate financial statements. For a better understanding of the Company's consolidated financial position and results of operations, reference should be made to the consolidated financial statements for the year ended 31 December 2010, which were issued on 27 January 2011. These IFRS consolidated financial statements are obtainable at the registered corporate address of NAFTA.

IFRS as adopted for use in the EU do not currently differ from IFRS as issued by the International Accounting Standards Board (IASB), except for portfolio hedge accounting under IAS 39, which has not been approved by the EU. The Company has determined that portfolio hedge accounting under IAS 39 would not impact the separate financial statements had it been approved by the EU at the balance sheet date.

The financial statements have been prepared on the historical cost basis, except for the revaluation of items of property, plant, and equipment, and certain financial instruments. The principal accounting policies adopted are set out below.

b. Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the process of applying the Company's accounting policies, which are described in Note 3, the Company has made the following judgements and key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year or that have the significant effect on the amounts recognized in the financial statements.

Financial Crisis and Economic Recession

The management of NAFTA is monitoring the impact of the financial crisis and the economic recession on the Company's business activities. The management of NAFTA believes that the financial crisis and recession will have no significant impact on the Company's business activities due to the nature of the Company's business activities, long-term contracts made with customers, and limited level of risk associated with the use of external sources of financing.

Energy legislation related to natural gas storage and price regulation

Primary energy legislation in gas industry is represented by Act No. 656/2004 Coll. on Energy and relating amendments and Act No. 276/2001 Coll. on Regulation in Network Industries and relating amendments. Among other obligations, the Company is required to provide non-discriminatory access to underground gas storage facilities and use of natural gas storage services. Based on updated laws the price for access to storage facilities and storage is subject to price regulation by the Regulatory Office for Network Industries (RONI) and shall apply generally to the period which starts 1 May of a calendar year and ends on 30 April of the following year, thus from 1 May 2010 for this year. Price regulation is exercised by determination of maximum prices based on a benchmark analysis of prices for access to the storage facilities and gas storage in other member countries of the European Union.

In 2009, the European Union approved the so-called 3rd Energy Package that presents, inter alia, Directive 2009/73/EC concerning common rules for the internal market on natural gas. The Directive's provisions can have an impact on the Company's operations in the future the extent of which will be known after the transposition in the Slovak legislation.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

Revaluation of Property, Plant and Equipment

Property, plant, and equipment are recognized in revalued amounts in accordance with the revaluation accounting model pursuant to IAS 16 applied for the first time to the Company's core assets used for the underground storage of natural gas as of 31 December 2005, and for other assets as of 30 June 2006. As of 31 December 2009, the Company came to the conclusion that revalued amounts of property, plant, and equipment need to be updated, and the Company performed a new revaluation as disclosed in Notes 3c and 4.

The revaluation of assets at the Company was performed by independent appraisers using the depreciated replacement cost approach. The revaluation of assets has resulted in a surplus in the value of the assets and a corresponding increase in equity, and also in changes in the estimated residual useful life of such assets. The estimates used in the revaluation model are based upon an expert independent valuation report. The resulting reported amounts for these assets and the related revaluation reserve do not necessarily represent values at which these assets could or would be sold.

There are uncertainties about future business conditions, changes in technology and the competitive environment within the industry that could require future adjustments to estimated revalued amounts and assets' lives, which could potentially result in material changes in reported financial position, equity and profit. Refer to Note 4 for further details.

Fair value of property, plant, and equipment could be significantly affected by a change in natural gas prices. This is the main reason for update of asset revaluation recognized in 2009.

Litigations

The Company is involved in various legal proceedings for which management has assessed the probability of loss that may result in a cash outflow. In making this assessment, the Company has relied on the advice of external legal counsel, the latest available information on the status of the court proceedings, and an internal evaluation of the likely outcome. Details of the individual legal cases are included in Note 20.2 and 20.3.

Impairment of Property, Plant and Equipment

The Company has calculated and recorded significant amounts for impairment of property, plant, and equipment on the basis of an evaluation of their future use, planned liquidation, or sale. For some of these items, no final decision has yet been made and therefore the assumptions on use, liquidation, or sale of assets may change. Refer to Note 4 for details on impairment of property, plant, and equipment.

Provision for Abandonment and Restoration

The separate financial statements include significant amounts as a provision for abandonment and restoration of production and storage wells and centres. The provision is based on estimates of the future costs and is also significantly impacted by the estimate of the timing of cash flows and the Company's estimate of the discount rate used. The provision takes into account costs estimated for the abandonment of production and storage wells and centres and for the restoration of sites to their original condition based on previous experience and estimates of costs. In 2008, the Company prepared a new estimate of the abandonment and restoration. Refer to Note 10 for further details.

c. Property, Plant and Equipment and Intangible Assets

As of 31 December 2010, property, plant, and equipment are stated in the balance sheet at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. The first revaluation was recorded as of 31 December 2005 for natural gas storage assets and as of 30 June 2006 for remaining assets. Revaluation was performed by independent valuation experts. Revalued amounts may differ from market value of a complete or partial sale of assets and the difference could be material. Revaluations are performed with the sufficient regularity (at least every five years) such that the carrying amount does not differ materially from that which would be determined using fair values at the balance sheet date. As at the balance sheet date, the Company assesses whether revalued amounts recognized in accounting books correspond to their fair values. As of 31 December 2009, based on such an assessment, the Company performed an update of revaluation of property, plant and equipment.

For wells and sites, the estimated cost of dismantling and removing the asset and restoring the site ("dismantling asset") are recorded at fair value based on discounted future cash flows. Dismantling assets related to production wells are depreciated over the life of the proved producible reserves on a unit-of-production basis.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

Any revaluation increase arising on the revaluation of the individual items of property, plant, and equipment is credited to the properties revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognized in the income statement, in which case the increase is credited to the income statement to the extent of the decrease previously charged. A decrease in the carrying amount arising on the revaluation of such property, plant and equipment is charged to the income statement to the extent that it exceeds the balance, if any, held in the properties revaluation reserve relating to a previous revaluation of that asset. Depreciation on revalued property, plant, and equipment is charged to the income statement. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the properties revaluation reserve is transferred directly to retained earnings.

Production wells and related centres are depreciated over the life of the proved producible reserves on a unit-of-production basis. Other items of property, plant and equipment are depreciated on the straight-line basis over estimated useful lives.

The estimated useful lives for the major classifications of property, plant, and equipment and intangible non-current assets are as follows:

	<i>Year ended</i>	
	31 December 2010	31 December 2009
Buildings, halls and structures used in natural gas storage	40 – 80 years	40 – 80 years
Cushion gas	1 000 years	1 000 years
Other buildings, halls and structures	25 – 40 years	25 – 40 years
Machines and equipment used in natural gas storage	4 – 40 years	4 – 40 years
Other machines, equipment and vehicles	4 – 30 years	4 – 30 years
Intangible assets	3 years	3 years

Expenditures related to hydrocarbon reserves exploration are accounted for in accordance with the successful efforts method. Under this method, exploration expenditures (exploration wells) are capitalized under assets in the course of construction when incurred and certain expenditures, such as geological and geophysical exploration costs, are expensed. A review is carried out at least annually, on a field-by-field basis, to ascertain whether proven reserves have been confirmed. When proven reserves are determined and production commenced, the relevant expenditures are transferred from assets in the course of construction to the relevant category of property, plant, and equipment. Expenditures related to efforts deemed to be unsuccessful are provided for.

Gains and losses on the disposal of property, plant, and equipment are fully recognized in the statement of profit and loss.

Subsequent expenditures relating to an item of property, plant, and equipment are added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the original assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditures are treated as repairs and maintenance and are expensed in the period in which they are incurred.

In accordance with the requirements of IAS 36, at each balance sheet date an assessment is made as to whether there is any indication that the recoverable amount of the Company's property, plant and equipment is less than the carrying amount. When there is such an indication, the recoverable amount of the asset, being the higher of the asset's net selling price and the present value of its net cash flows, is estimated. Any resulting estimated impairment loss is recognized in full in the statement of profit and loss or as decrease in revaluation reserve in the equity in the year in which the impairment occurs. The discount rates used to calculate the net present value of the cash flows are those considered appropriate to the Company in the economic environment in the Slovak Republic at each balance sheet date. In the event that a decision is made to abandon a construction project in progress or to significantly postpone its planned completion date, the carrying value of the asset is reviewed for potential impairment, and a provision is recorded, if appropriate.

d. Cushion Gas

Cushion gas represents gas needed to run the underground reservoirs of natural gas. Its production would affect the ability of the underground reservoirs to serve. Cushion gas is disclosed as part of the value of the assets used for underground storage of natural gas.

e. Investments in the Subsidiaries, Joint Venture and Associates

Investments are recognized and derecognized on the transaction date when the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

Investments in the subsidiaries, joint venture and associates that are not held for sale are recognized at cost less impairment losses in these separate financial statements.

f. Financial Assets

Financial assets are classified into the following specified categories: 'held-to-maturity' investments, financial assets 'at fair value through profit or loss' (FVTPL), 'available-for-sale' (AFS) financial assets and 'loans and receivables'. The classification depends on the nature and purpose of using the financial assets and is determined at the time of initial recognition.

As at the dates of the preparation of the financial statements, held-to-maturity' investments (debt securities NAFTA intends to hold up to their maturity) are recorded at amortised cost using the effective interest method less any impairment, with revenue recognized on an effective yield basis.

Investments other than held-to-maturity debt securities are classified either as financial assets "at fair value through profit or loss" (investments held for trading) or as investments available for sale, which are measured as at the dates of the preparation of the following financial statements at fair value based on quoted market prices at the balance sheet date. Where securities are held for trading purposes, unrealised gains and losses are included in the statement of profit and loss. For available for sale investments, unrealised gains and losses are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized is included in the statement of profit and loss. If the fair value of investments available for sale cannot be determine reliably (e.g. investments in unlisted companies), such investments are measured at cost less impairment losses.

Trade receivables, loans, and other receivables that have fixed or variable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognized by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

g. Cash and Cash Equivalents

Cash and cash equivalents consist of cash in hand and the balances with banks, and highly liquid investments with insignificant risk of changes in value and original maturities of three months or less at the date of acquisition.

h. Inventories

Materials and supplies are stated at the lower of cost or net realizable value. Cost includes raw materials, other direct costs and related overheads. Net realizable value is an estimate of the selling price in the ordinary course of business, less selling expenses.

i. Accruals

Expenses and liabilities are recorded in the accounting records and reported in the financial statements of the periods to which they relate.

j. Financial Liabilities

Financial liabilities are classified as either financial liabilities 'at fair value through profit or loss' (FVTPL) or 'other financial liabilities'. Financial liabilities are classified as at FVTPL where the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as 'held for trading':

- If it has been incurred principally for the purpose of repurchasing in the near future; or
- If it is a part of an identified portfolio of financial instruments that the Company manages and has a pattern of a short-term profit-taking portfolio; or
- If it is a derivative that is not designated and effective as a hedging instrument.

Financial liabilities at FVTPL are stated at fair value, with any resultant gain or loss recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability.

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognized on an effective yield basis, except for short-term liabilities when the recognition of interest would be immaterial.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

k. Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

The Company accrues costs relating to the abandonment of its production, exploration, and storage wells (including related centres and pipelines) and any related restoration costs. Additionally, the Company accrues costs relating to the abandonment and restoration of waste dump sites. Estimated abandonment and restoration costs are based on current legislation, technology, and price levels. In respect of production wells and related centres, the estimated cost is provided over the life of the proved producible reserves on a unit-of-production basis. The provision for abandonment and restoration is measured in an amount that includes all anticipated future costs related to abandonment and restoration discounted to their present value and reflecting the inflation. The discount rate used reflects current market assessments of the time value of money and the risks specific to the liability.

Changes in the provisions for dismantling and site restoration that relate to assets carried under the revaluation model under IAS 16, except for the unwinding of the discount, alter the related revaluation surplus or deficit in accordance with IFRIC 1 "Changes in Existing Decommissioning, Restoration and Similar Liabilities". Such a change in the liability also results in a reassessment of the dismantling asset previously recognized to ensure the asset is presented at fair value at the balance sheet date.

l. Revenue Recognition

NAFTA records revenue from underground storage of natural gas, hydrocarbon sales and other activities on the accrual basis. Revenue is measured at the fair value of the consideration received or receivables and represents amounts receivable for goods and services provided in the normal course of business, net of discounts and value added tax.

m. Income Taxes

Income taxes are provided on accounting profit as determined under the applicable legislation at a rate of 19%, after adjustments for certain items for taxation purposes.

n. Deferred Income Taxes

Deferred income tax is provided, using the liability method, for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes. Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled. Deferred tax is charged or credited to the statement of profit and loss, except when it relates to items credited or charged directly to equity, in which case the deferred tax is also recorded in equity. The valid income tax rate for 2010 is 19% (2009: 19%).

The most significant temporary differences arise as a result of differences between net tax value and the net book value of property, plant, and equipment (including revaluation) and due to the provision for abandonment and restoration costs. Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilised.

o. Transactions in Foreign Currencies

Transactions in foreign currencies are translated at the exchange rate in effect on the day of the transaction. Resulting exchange differences are recognized as an expense or as income in the statement of profit and loss. At the balance sheet date, assets and liabilities denominated in foreign currencies are converted to EUR using the exchange rates of the ECB on the balance sheet date. Unrealized gains and losses due to fluctuations in exchange rates are fully recognized in the profit and loss statement.

p. Borrowing Costs

Revised standard IAS 23 requires borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. However, borrowing costs incurred during the acquisition, construction, or production of assets measured at fair values, are included directly in the profit or loss when they are incurred. All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

q. Financial Instruments

Financial assets and liabilities are recognized on the Company's balance sheet when the NAFTA became a party to the contractual provisions of the instrument.

r. Derivative Financial Instruments

Derivative financial instruments are initially recorded at cost and are re-measured to fair value at subsequent reporting dates.

Changes in the fair value of derivative financial instruments that are designated and effective as cash flow hedges are recognized directly in equity. At the inception of the hedge relationship, the Company documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Company documents whether the hedging instrument that is used in a hedging relationship is highly effective in offsetting changes in cash flows of the hedged item. Amounts deferred in equity are recognized in the statement of profit and loss in the same period in which the hedged firm commitment or forecasted transaction affects net profit or loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the statement of profit and loss as they arise.

s. Social Security and Pension Schemes

Contributions are made to the government's health, retirement benefit and unemployment schemes at the statutory rates in force during the year, based on gross salary payments. The cost of social security payments is charged to the statement of profit and loss in the same period as the related salary cost. The Company has no obligation to contribute to these schemes beyond the statutory rates in force. The Company also makes contributions to a supplementary pension fund for employees.

t. Retirement and Other Long-term Employee Benefits

The Company operates un-funded long-term defined benefit programs comprising lump-sum post-employment. According to IAS 19, the employee benefits costs are assessed using the projected unit credit method. Under this method, the cost of providing pensions is charged to the statement of profit and loss so as to spread the regular cost over the service lives of employees. The benefit obligation is measured as the present value of the estimated future cash outflows discounted by the market yields on government bonds, which have terms to maturity approximating the terms of the related liability.

u. Finance Lease

Assets acquired under finance lease are recognized as assets at their fair value as at the acquisition date. The related payable to the lessor is recognized as obligations under finance leases in the balance sheet. Financial expenses representing the difference between total obligations under finance leases and fair value of acquired assets are recognized in the statement of profit and loss over the lease term using the internal rate of return.

v. Emission Rights

Emission quotas issued free of charge are accounted at zero book value. Transactions that have been made on market are recorded at cost. The liabilities resulting from potential differences between available emission quotas and emission quotas to be delivered are accounted for as a liability, at fair market value.

w. Government and European Union Grants

Grants are not recognized until there is reasonable assurance that (i) the Company will comply with the conditions associated with receiving the grants, and (ii) the grants will be received.

Grants are recognized in the income statement on a systematic basis over the periods in which the Company has recognized costs that are intended to be compensated by the grants. Specifically, government grants whose primary condition is that the Company should purchase, construct, or otherwise acquire non-current assets are recognized as deferred revenue in the balance sheet and accounted in the profit or loss on a systematic and rational basis over the economic useful lives of the related assets.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

Property, plant, and equipment are recognized at revalued amounts. As at 31 December 2009, property, plant, and equipment used in the storage of natural gas as well as other non-current tangible assets were revalued based on the observed asset conditions and asset replacement costs as at 31 August 2009 by Arthur D. Little, independent valuers, by reference to market evidence of recent transactions for similar properties and replacement cost estimation methodologies. Replacement cost estimates are based on estimated costs of building Modern Equivalent Assets (MEA) and estimating the residual asset value from the MEA cost, useful life and age of existing assets and depletion ratio (Depreciated Replacement Cost methodology). In certain instances the amounts recognized as a result of the revaluation are adjusted based on the results of profitability tests using the discounted cash flow method.

Property, plant, and equipment used in the storage of natural gas include land, buildings and structures, plant, machinery and equipment, cushion gas, and dismantling assets.

As at 31 December 2010 and 31 December 2009, the Company has reassessed the impairment of property, plant and equipment in accordance with IAS 36 "Impairment of Assets" on the basis of an evaluation of their future use, liquidation, or sale. The Company has determined the amount of the provision on the basis of expert valuations, liquidation plan, estimated sale price or the estimated sale price of different assets.

Assets in the course of construction include:

	<i>Cost</i>	<i>Provision</i>	<i>31 December 2010 Net</i>	<i>31 December 2009 Net</i>
Exploration wells	27 980	(27 980)	-	-
Facilities with suspended completion	5 962	(5 701)	261	261
Other	85 658	(567)	85 091	24 256
Total	119 600	(34 248)	85 352	24 517

NAFTA recorded a provision in respect of exploration wells, the success of which was uncertain or which were impaired, and also in respect of related facilities, the construction of which was suspended. In 2010, the Company capitalised EUR 11 781 thousand referring to cost of hydrocarbon reserves exploration (31 December 2009: EUR 6 595 thousand).

Other assets in the course of construction primarily relate to the extension of Gajary - Baden gas storage facility and construction and modernisation of non-current assets related to the underground storage facility of natural gas.

NAFTA's non-current tangible assets are insured against all risks through the "ALLRISK" insurance policy. The insured amount is EUR 820 332 thousand.

As at 31 December 2010, NAFTA had a limited right to handle non-current tangible assets in the amount of EUR 1 238 thousand (31 December 2009: EUR 1 238 thousand).

5. INVESTMENTS IN THE SUBSIDIARIES, JOINT VENTURE AND AVAILABLE FOR SALE INVESTMENTS

Investments in the subsidiaries, joint venture, and available for sale investments as at 31 December 2010 and 2009 are comprised of the following:

	<i>Subsidiaries</i>	<i>Joint venture</i>	<i>Available for sale investments</i>	<i>Total</i>
Cost	6 726	17 293	7 127	31 146
Diminution in value	<u>(5 975)</u>	<u>-</u>	<u>(7 127)</u>	<u>(13 102)</u>
Closing net book value	<u>751</u>	<u>17 293</u>	<u>-</u>	<u>18 044</u>

Information on the subsidiaries can be summarised as follows:

<i>Name of Company</i>	<i>Seat</i>	<i>Effective ownership</i>	<i>Principal activity</i>
Karotáž a cementace, s. r. o.	Velkomoravská 2606/83, Hodonín, Czech Republic	51%	Logging and cementing
Naftárska leasingová spoločnosť a. s.	Zastávka 2103, Gbely, Slovak Republic	100%	Finance lease
Nafta Exploration, s. r. o.	Plavecký Štvrtok 900, Slovak Republic	100%	Exploration

Information on the joint venture can be summarised as follows:

<i>Name of Company</i>	<i>Seat</i>	<i>Effective ownership</i>	<i>Principal activity</i>
POZAGAS a. s.	Malé námestie 1, Malacky, Slovak Republic	35%	Natural gas storage

Additional information on the investments in the subsidiaries and the joint venture:

<i>Name of Company</i>	<i>Equity</i>		<i>Profit/(loss)</i>	
	<i>2010</i>	<i>2009</i>	<i>2010</i>	<i>2009</i>
Karotáž a cementace, s. r. o.	3 782	3 297	719	445
Naftárska leasingová spoločnosť a. s.	(24 414)	(24 407)	(7)	(8)
Nafta Exploration, s. r. o.	5	5	-	-
POZAGAS a. s.	174 705	201 914	10 855	14 218

Available for sale investments include the following other equity investments:

<i>Name of Company</i>	<i>Seat</i>	<i>Effective ownership</i>	<i>Principal activity</i>
AG Banka, a. s. v konkurze	Coboriho 2, Nitra, Slovak Republic	39%	Dormant, in bankruptcy
THERMO – SHIELD EUROPA, a. s.	Koprivnická 36, Bratislava, Slovak Republic	30%	Dormant

Investments in the subsidiaries, joint venture and available-for-sale investments are recorded at cost adjusted for impairment, if any.

In 2009, the Company sold its ownership interest in START AUTOMATION, spol. s r.o.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS

(Thousands of EUR)

6. INVENTORIES

Inventories, net are comprised of the following:

	31 December 2010	31 December 2009
Materials and supplies	4 480	10 396
Work in progress	-	109
Finished goods	1 492	4 371
Less: provision for old and obsolete items	(425)	(145)
Total inventories, net	5 547	14 731

NAFTA's inventories are insured against all risks under the "ALLRISK" insurance policy.

7. TRADE AND OTHER RECEIVABLES

Trade and other receivables, net are comprised of the following:

	31 December 2010	31 December 2009
Trade receivables		
Domestic customers	14 538	6 073
Foreign customers	2 350	4 526
Total trade receivables	16 888	10 599
Less: provisions for doubtful amounts	(1 273)	(1 275)
Total trade receivables, net	15 615	9 324
Receivables from subsidiaries	10 775	10 763
Other receivables	26 474	23 486
Less: provisions for doubtful amounts	(33 089)	(29 094)
Trade and other receivables, net	19 775	14 479

As of 31 December 2010, the receivables include a receivable from Naftárska leasingová spoločnosť a. s. (subsidiary) in the total amount of EUR 10 775 thousand (31 December 2009: EUR 10 763 thousand), for which a 100% provisions were recorded.

Included in other receivables as of 31 December 2010 is the amount of EUR 18 297 thousand (31 December 2009: EUR 18 297 thousand) outstanding from SPX Trading, a. s., company in liquidation. The receivable was fully provided for. As of 31 December 2010 and 2009, the other receivables also include a receivable from a court deposit in relation to litigation with Slovenská kreditná banka, a.s. During 2010 NAFTA recorded 100% provision for this receivable (refer also to Note 20.2).

The trade receivables include also advance payments for non-current assets purchasing.

During 2010 the European Commission decided on granting funds in the amount of EUR 2 936 thousand to refinance some expenses related to the investment project concerning the underground gas storage facility, which will enable reverse flow in the event of short term supply disruption and improve security of gas supplies in Slovak Republic and other European countries. The relevant receivable is recognized as other receivables with the corresponding entry to deferred income.

The average credit period on sales of goods and services is 21 days (2009: 20 days). The Company has provided fully for all receivables over 365 days because previous experience is such that receivables that are past due beyond 365 days are generally not recoverable. Trade receivables between 60 days to 365 days are provided for based on estimated irrecoverable amounts from the sale of goods and services, determined by reference to previous default experience.

Movement in the provision for doubtful debts:

	Year ended 31 December 2010	Year ended 31 December 2009
Balance at beginning of the year	(30 369)	(31 008)
Additions to and release of provisions	(3 997)	639
Amounts written off as uncollectible	4	-
Balance at end of the year	(34 362)	(30 369)

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

8. EQUITY

Registered capital includes certificate-form registered shares. As of 31 December 2010, total number of issued and fully paid shares was 3 230 960, with nominal value of EUR 33.19 per share (31 December 2009: EUR 33.19).

As of 31 December 2010 and 31 December 2009, NAFTA held 48 013 own shares at cost of EUR 4 745 thousand. The amount of shares held is in no way limited by law.

Other capital funds are comprised of the legal reserve fund, which amounts to EUR 21 463 thousand as of 31 December 2010 (31 December 2009: EUR 21 463 thousand). Under the Company's Articles of Association, the legal reserve fund is not available for distribution and can be used to cover losses and to increase the registered capital.

For the profit distribution purposes the separate financial statements of the Company prepared under IFRS as of 31. December 2010 are relevant. The amount of retained earnings under the Company's financial statements prepared as of 31 December 2010, distributable to the shareholders is EUR 37 547 thousand. The retained earnings for 2009 in the amount of EUR 486 645 thousand was derived from the statutory separate financial statements prepared in accordance with the Slovak accounting procedures for entrepreneurs. In 2010, dividend payment to the shareholders from profit for 2009 was approved in the amount of EUR 22.50 per the share.

The hedging reserve represents hedging gains and losses recognized on the effective portion of cash flow hedges. The cumulative deferred gain or loss on the hedge is recognized in profit or loss when the hedged transaction impacts the profit or loss, or is included as a basis adjustment to the non-financial hedged item, consistent with the applicable accounting policy.

Hedging reserve:	Year ended 31 December 2010	Year ended 31 December 2009
Balance at beginning of the year	(309)	(798)
Profit/(loss) recognized on cash flow hedges:		
Foreign currency option exchange contracts	-	(65)
Forward currency contracts	(1 034)	(80)
Commodity swap contracts	-	195
Option commodity contracts	159	(114)
Interest rate swap contracts	17	-
Income tax related to profit/loss recognized in equity	163	12
Transferred to profit or loss:		
Forward currency contracts	1 303	(188)
Commodity swap contracts	-	856
Option commodity contracts	(46)	-
Income tax related to profit/loss recognized in profit or loss	(239)	(127)
Balance at end of the year	14	(309)

9. BORROWINGS

	Current		Non-current	
	31 December 2010	31 December 2009	31 December 2010	31 December 2009
Unsecured – at amortised cost				
Bank loans and borrowings	922	12 215	12 000	-
Total	922	12 215	12 000	-

The Company has opened credit lines amounting to EUR 52 078 thousand. See also Note 21.2.e. In 2010, the Company drew down loans denominated in EUR at floating interest rates. The current weighted average effective interest rate on bank loans equals 1.31% p.a. The long-term loans are payable in 2013 and are not secured by any assets. In relation to long-term loans the Company entered into interest rate swaps to hedge against the risk of interest rate volatility. See also Note 21.

Under the loan agreements, the Company is required, *inter alia*, to comply with certain financial covenants as at the end of a calendar half-year (as of 30 June and 31 December). As of 31 December 2010 the Company complied with these covenants.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

10. PROVISION FOR ABANDONMENT AND RESTORATION

The Company estimates the costs of abandonment of production, exploration, and storage wells (including the related centres and pipes) and other related costs of restoration.

Movements in the provision for abandonment and restoration are summarised as follows:

Balance as at 31 December 2008	69 783
Additions/(Release) of provision to assets	(3 944)
Additions/(Release) through profit or loss	(1 661)
Interest on discounting	2 868
Utilization of provision	(222)
Closing balance as at 31 December 2009	66 824
Additions/(Release) to provision to assets	7 513
Additions/(Release) through profit or loss	1 499
Interest on discounting	2 702
Utilization of provision	(883)
Closing balance as at 31 December 2010	77 655

The provision is included in liabilities as follows:

	<i>Current liabilities (included in other current liabilities)</i>	<i>Non-current liabilities</i>	<i>Total</i>
At 31 December 2009	1 508	65 316	66 824
At 31 December 2010	3 646	74 009	77 655

NAFTA currently has 184 production wells in addition to 251 storage wells. Production wells that are currently in production or are being used for other purposes are expected to be abandoned after reserves have been fully produced or when it has been determined that the wells will not be used for any other purposes. Storage wells are expected to be abandoned after the end of their useful lives. NAFTA has the obligation to dismantle the production and storage wells, decontaminate contaminated soil, restore the area and restore the site to its original condition to the extent as stipulated by law.

The provision for abandonment and restoration has been estimated using existing technology and reflects expected future inflation. The present value of these costs was calculated using a discount rate, which reflects current market assessment of the time value of money and risks specific to the liability (3.4%). The provision takes into account costs estimated for the abandonment of production and storage wells and centres, and for the restoration of the site to its original condition. These costs are expected to be incurred between 2011 and 2083.

11. RETIREMENT AND OTHER LONG-TERM EMPLOYEE BENEFITS

The long-term employee benefits program at the Company is a defined benefit program, under which employees are entitled to a lump-sum payment upon old age or disability retirement as a multiple of the employee's average salary and, subject to vesting conditions. As of 31 December 2010 there were 758 employees at the Company covered by this program. To date it has been an unfunded program, with no separately allocated assets to cover the program's liabilities.

The change in net liabilities stated in the balance sheet for the year ended 31 December 2010 and the year ended 31 December 2009 is summarised as follows:

	<i>Long-term benefits</i>	<i>Total employee benefits 31 December 2010</i>	<i>Total employee benefits 31 December 2009</i>
Liabilities as at 1 January, net	1 297	1 297	1 131
Net change in provision (actuarial estimate), included in labour and related expenses	222	222	225
Employee benefits paid	(130)	(130)	(59)
Liabilities as at 31 December, net	1 389	1 389	1 297

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

Key assumptions used by the Company in estimating the actuarial assessment:

	At 31 December 2010	At 31 December 2009
Discount rate	3.4%	4.1%
Future expected annual rate of salary increases	2.2%	2.0%
Expected fluctuation	5.0%	5.0%
Retirement age	62 years	62 years

12. TRADE AND OTHER PAYABLES

Trade and other payables consist of the following:

	31 December 2010	31 December 2009
Trade payables	14 843	8 626
Payables to employees	2 567	2 529
Social security liabilities	1 010	1 005
Other tax liabilities	1 690	1 562
Other payables	653	975
Total trade and other payables	20 763	14 697

The average credit period is 28 days (2009: 29 days). The Company has financial risk management policies in place to ensure that all payables are paid within the credit timeframe.

The closing balance of the trade payables includes payables of EUR 401 thousand (2009: EUR 400 thousand), which are overdue as at the balance sheet date.

The change on Social Fund liabilities disclosed in the balance sheet as of 31 December 2010 and 31 December 2009 is analysed as follows:

	Year 2010	Year 2009
Payables as at 1 January	89	106
Total creation:	367	383
<i>from expenses</i>	167	167
<i>from profit</i>	200	216
Total drawing:	416	400
<i>catering services</i>	99	90
<i>recreation</i>	74	73
<i>other</i>	243	237
Payables as at 31 December	40	89

13. OTHER CURRENT PROVISIONS

Other current provisions consist of provisions for liabilities and charges as follows:

	31 December 2010	31 December 2009
Provision for abandonment and restoration	3 646	1 508
Litigation liabilities and other provisions	221	14 819
Total other current provisions	3 867	16 327

For details on provisions for abandonment and restoration, refer to Note 10. Provisions are also recorded for various litigation and potential disputes. Refer also to Note 20.2.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS

(Thousands of EUR)

14. LABOUR AND RELATED EXPENSES

Labour and related expenses are comprised of the following:

	<i>Year ended</i> 31 December 2010	<i>Year ended</i> 31 December 2009
Wages and salaries	(13 137)	(12 672)
Social security costs and other social expenses	<u>(6 531)</u>	<u>(6 132)</u>
Total labour and related expenses	<u>(19 668)</u>	<u>(18 804)</u>

The average number of employees for the year ended 31 December 2010 was 780, thereof managers 8 (year ended 31 December 2009: 777, thereof managers 8).

15. OTHER OPERATING AND FINANCIAL INCOME/(EXPENSES)

15.1. Other Operating Income/(Expenses), net

Other operating income/(expenses), net consist of the following items:

	<i>Year ended</i> 31 December 2010	<i>Year ended</i> 31 December 2009
Taxes and charges	(2 538)	(2 478)
Profit/(loss) on sale of non-current assets and inventories	262	711
Provisions for receivables, net	(3 986)	642
Provisions for inventories, net	(280)	132
Provision for abandonment and restoration costs	(1 499)	1 661
Provision for potential losses from litigations and other provisions	14 500	(179)
Insurance charges	(860)	(818)
Other income/(expenses), net	<u>(165)</u>	<u>(765)</u>
Total other operating income/(expenses), net	<u>5 434</u>	<u>(1 094)</u>

15.2. Other Financial Income/(Expenses), net

Other financial income/(expenses), net consist of the following items:

	<i>Year ended</i> 31 December 2010	<i>Year ended</i> 31 December 2009
Income on investments in subsidiaries and joint venture	5 750	3 658
Profit/(loss) on sale of financial investments	-	10
Exchange rate differences, net	1 064	(27)

16. INCOME TAXES

16.1. Income Taxes Reconciliation

Reconciliation between income taxes calculated at the statutory rate of 19% to income tax expenses provided is as follows:

	<i>Year ended</i> 31 December 2010	<i>Year ended</i> 31 December 2009
Profit before income taxes	<u>96 895</u>	<u>90 859</u>
Tax at domestic income tax rate of 19%	(18 410)	(17 263)
Tax effect of expenses not deductible in determining taxable profit	(977)	(46)
Tax effect of non-taxable income	3 684	682
Other	<u>(2)</u>	<u>(41)</u>
Total income tax charges	<u>(15 705)</u>	<u>(16 668)</u>

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

The overall effective tax rate differs from the statutory tax rate of 19% primarily due to differences in the classification of certain expense and revenue items for accounting and tax purposes.

16.2. Income Taxes

Income tax expenses comprise the following:

	<i>Year ended</i> 31 December 2010	<i>Year ended</i> 31 December 2009
Current income tax	(20 401)	(20 886)
Deferred income tax	4 696	4 218
Total income taxes	(15 705)	(16 668)

16.3. Deferred Income Taxes

The following are the major deferred tax liabilities and assets recognized by the Company, and the movements thereon, during the current and prior reporting periods:

	<i>As at</i> 1 January 2009	<i>Charge (credit)</i> <i>to equity for the</i> <i>period</i>	<i>Charge (credit)</i> <i>to profit for the</i> <i>period</i>	<i>As at</i> 31 December 2009
Property, plant and equipment	(152 491)	6 416	3 762	(142 313)
Provision for abandonment and restoration costs	9 149	-	383	9 532
Retirement and other long-term employee benefits	215	-	31	246
Inventories	377	-	58	435
Litigations	67	-	12	79
Derivatives	187	(115)	-	72
Other	19	-	(28)	(9)
Total	(142 477)	6 301	4 218	(131 958)

	<i>As at</i> 1 January 2010	<i>Charge (credit)</i> <i>to equity for the</i> <i>period</i>	<i>Charge (credit)</i> <i>to profit for the</i> <i>period</i>	<i>As at</i> 31 December 2010
Property, plant and equipment	(142 313)	1 005	3 802	(137 506)
Provision for abandonment and restoration costs	9 532	-	855	10 387
Retirement and other long-term employee benefits	246	-	18	264
Inventories	435	-	(173)	262
Litigations	79	-	(79)	-
Derivatives	72	(76)	-	(4)
Other	(9)	-	273	264
Total	(131 958)	929	4 696	(126 333)

17. EARNINGS PER SHARE

Earnings per share are calculated using the net profit after tax attributable to shareholders of NAFTA divided by the weighted average number of shares in existence during the accounting period.

18. COSTS OF SERVICES PROVIDED BY THE COMPANY'S AUDITORS

Costs of the services of an audit firm comprised EUR 43 thousand for the audit of the financial statements (2009: EUR 55 thousand). No accounting or tax advisory services were provided in 2010 (2009: EUR 11 thousand).

19. SIGNIFICANT TRANSACTIONS WITH THIRD PARTIES AND RELATED PARTIES

19.1. Significant Transactions

NAFTA provides underground storage of natural gas for SPP (parent company), RWE Transgas, a. s., GDF SUEZ s. a., E.ON Ruhrgas AG, VNG-Verbundnetz Gas AG, VITOL SA and other companies. NAFTA performs operation services of underground storage facilities of natural gas at POZAGAS (joint venture).

In 2008, NAFTA signed a contract with OMV Slovakia Exploration for joint exploration and production of hydrocarbons in the Vienna Basin.

19.2. Related Parties

Related parties of the company have been identified as unconsolidated subsidiaries and associates (see Note 5), companies under common ownership (SPP Group), shareholders, directors, and management of the Company.

Transactions between NAFTA and the related parties are performed under the arm's length principle.

As of 31 December 2010, receivables from related parties amounted to EUR 21 868 thousand (31 December 2009: EUR 14 369 thousand).

As of 31 December 2010, payables to related parties amounted to EUR 972 thousand (31 December 2009: EUR 2 149 thousand).

Revenues from transactions with related parties for the year ended 31 December 2010 amounted to EUR 114 094 thousand (year ended 31 December 2009: EUR 131 113 thousand).

Expenses and other deliveries from transactions with related parties for the year ended 31 December 2010 amounted to EUR 4 834 thousand (year ended 31 December 2009: EUR 13 505 thousand).

Transactions with related parties represent mainly services related to underground storage, sale and purchase of natural gas mainly to the direct or indirect owners of the Company (SPP, POZAGAS a.s., GDF SUEZ s. a., E.ON Ruhrgas AG). Other related party transactions represent other maintenance services (other companies) and advisory services (E.ON Ruhrgas AG, GDF SUEZ, organisational unit).

Amounts related to each separate entity have not been disclosed as management of the Company believes this would breach confidentiality and/or trade secrets and/or may cause damage to the Company.

NAFTA is not involved in any transactions with the Company's management and members of its statutory bodies except for the employment relationship transactions.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

19.3. Board Members' and Directors' Remuneration

Remuneration paid to board members and directors during the year ended 31 December 2010 and 31 December 2009 was as follows:

	<i>Year ended</i> 31 December 2010	<i>Year ended</i> 31 December 2009
Salaries	1 151	1 057
Discretionary bonuses	-	-
Total	1 151	1 057

Salaries and bonuses are included in labour and related expenses.

20. COMMITMENTS AND CONTINGENCIES

20.1. Capital Expenditures

As of 31 December 2010, capital expenditures in the amount of EUR 27 246 thousand (31 December 2009: EUR 60 380 thousand) have been committed under contractual arrangements that are not recognized in these financial statements and relate primarily to the construction and modernisation of non-current assets related to the underground storage facility of natural gas.

20.2. Litigation

Following the merger of NAFTA with NAFTA TRADE, a.s. in 2001, NAFTA assumed a guarantee for a loan granted to Naftárska leasingová spoločnosť, a.s. ("NLS") by Slovenská kreditná banka, a.s. ("SKB"). Even though this loan was repaid by NLS in line with a contract for the safe assignment of receivables agreed between SKB, NLS, and SPP, the bankruptcy administrator of SKB submitted a proposal for execution against NLS and NAFTA for payment of the principal in the amount of EUR 3 982 thousand and related interests. The court dismissed the above motion for granting an authorisation for execution. The bankruptcy trustee of SKB has filed an appeal against this ruling. The appeal court cancelled the decision and returned the matter to the original court responsible for the original decision. The original court has issued an execution order. NAFTA has appealed this decision on the execution order and requested suspension of the execution. The court agreed with the motion and suspended the execution until the legal dispute is lawfully ended. Based on the consent of the court, NAFTA deposited EUR 3 982 thousand to an escrow account of the court. In October 2009, the Regional Court issued a decision on the debt expiration. In December 2009, the bankruptcy administrator filed an appeal for cancellation of this verdict. In December 2010, SKB, NLS, SPP, and NAFTA signed an out-of-court settlement agreement, based on which NAFTA released provision created for this litigation in the past and recorded a provision to cover the risks related to the receivable from the court's escrow account. These adjustments have resulted in the increase of the operating profit by EUR 8 246 thousand for the year ended 31 December 2010.

In addition to the legal cases described above, the Company is also involved in other litigations arising in the normal course of business and it is not expected, either individually or in the aggregate, that they would have a significant adverse impact on the accompanying individual financial statements.

20.3. Taxes

The tax environment under which NAFTA operates in the Slovak Republic is dependent on the prevailing tax legislation and practice with relatively little existing precedent. As the tax authorities are reluctant to provide official interpretations with respect to the tax legislation, there is an inherent risk that the tax authorities may require adjustments of the corporate income tax base. The Tax Authorities in the Slovak Republic have broad powers of interpretation of tax laws, which could result in unexpected results of tax examinations. The amount of any potential tax liabilities related to these risks cannot be estimated.

The Company has had a tax audit for the years 1996 to 1998. In March 2001, the tax audit report was delivered to the Company and an additional tax liability of EUR 2 771 thousand was raised, partially in relation to related party transactions. In respect of the additional tax liability, the Tax Authority also charged penalty that amounts to 100% of the additional tax liability. The amount of the additional tax liability and tax penalty was recorded in the Company's financial statements as of 31 December 2001 and paid subsequently. The Company has filed a claim, the result of which has been that the Supreme Court has cancelled the decision of the Tax Directorate of the Slovak Republic. The Tax Directorate has confirmed its initial decision. NAFTA has filed a claim to review the decision. The Regional Court dismissed the claim. The Company appealed against this judgement to the Supreme Court of the Slovak Republic. The Supreme Court dismissed the petition. The Company has filed a constitutional complaint against the resolution to the Constitutional Court, which accommodated the complaint and rescinded the judgement of the Supreme Court of the Slovak Republic, and remanded the matter for further

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

procedures, in which the Supreme Court rescinded the Tax Authority's decisions and remanded the matter for further proceedings. The Tax Directorate reconfirmed its original decisions. The Company filed a law suit against the Tax Directorate's decisions. The decisions of the Tax Directorate were contested by the protests of Prosecutor. Based on the prosecutor's arguments the Ministry of Finance of the Slovak Republic amended the Tax Directorate's decisions so that the assessed additional tax liability was reduced to EUR 1 304 thousand. The resolutions made by the Ministry of Finance became legally effective in January 2011. In accordance with International Financial Reporting Standards NAFTA will record income related to the Ministry of Finance decision after the receipt of funds on bank accounts of the Company.

In 2007, the Company had a repeated tax audit for 1999. In December 2007, the tax audit report was delivered to the Company containing the assessment of additional tax liability. Both the additional tax liability of EUR 1 064 thousand and estimated tax penalty of EUR 136 thousand were recorded in the financial statements as of 31 December 2007. The Company has appealed against the tax audit report and assessment note issued. The Tax Directorate confirmed the tax protocol and tax assessment. The Company filed a law suit against the Tax Directorate's decision and paid the assessed additional tax to the Tax Authority in 2010.

Tax declarations remain open and subject to inspection for at least a five-year period. The fact that a year has been reviewed does not close that year, or any tax declaration applicable to that year, from further review during the next five-year period. Consequently, the Company's tax declarations for the years 2005 through 2010 are open and subject to review.

20.4. Bank Guarantees

The Company did not record any bank guarantees as of 31 December 2010.

21. FINANCIAL INSTRUMENTS

21.1. Capital Risk Management

The Company manages its capital to ensure that it will be able to continue as a going concern with the aim to achieve an optimum debt and equity balance. The Company's overall strategy remains unchanged from 2009.

The gearing ratio at the year-end was as follows:

	31 December 2010	31 December 2009
Debt (i)	(12 922)	(12 215)
Cash and cash equivalents	1 823	31 163
Net debt	(11 099)	-
Equity (ii)	(741 653)	(736 039)
Net debt to equity ratio	1.5%	0%

(i) Debt is defined as long- and short-term borrowings.

(ii) Note 8.

21.2. Categories of Financial Instruments

	31 December 2010	31 December 2009
Financial derivatives recognized as hedging	17	-
Loans and receivables (including cash and cash equivalents)	21 598	45 642
Financial assets	21 615	45 642
Financial derivatives recognized as hedging	-	(382)
Interest free liabilities	(21 904)	(15 071)
Bank loans carried at amortised cost	(12 922)	(12 215)
Financial liabilities	(34 826)	(27 668)

NAFTA a.s.

For the year ended 31 December 2010
(Thousands of EUR)

(1) Financial Risk Factors

The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates, fluctuations of commodity prices, and loan interest rates. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the company.

The use of financial derivatives is governed by the Company's policies approved by the Board of Directors, which provide principles of management of foreign exchange risk, commodity price fluctuation risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments, and the investment of excess liquidity. The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

a. Foreign exchange risk

The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures primarily with respect to US dollars. The Company uses derivative instruments to reduce this risk.

The carrying amounts of the company's foreign currency denominated monetary assets and monetary liabilities at the balance sheet date are as follows:

	Liabilities		Assets	
	31 December 2010	31 December 2009	31 December 2010	31 December 2009
USD	43	17	1 953	7 277
CZK	313	156	1 481	229

The following table details the Company's sensitivity to a 17% increase and decrease of EUR against USD (in 2009: 22%) and a 15% increase and decrease of EUR against CZK (2009: 15%). The sensitivity analysis includes foreign currency denominated monetary items and adjusts their translation at the period end for the aforementioned change in foreign currency rates. A positive number below indicates an increase in profit in the case of a decrease in EUR against the relevant currency. Where EUR strengthens against the relevant currency, there would be an opposite impact on the profit, and the balances below would be negative.

	USD		CZK	
	31 December 2010	31 December 2009	31 December 2010	31 December 2009
Profit or loss (i)	325	1 597	175	11

(i) This is mainly attributable to the exposure outstanding on USD and CZK receivables, payables and cash at the year end.

The following table details the option and forward foreign currency (FC) contracts outstanding at the balance sheet date:

Outstanding option foreign currency contracts	Average exchange rate EUR/USD		Foreign currency (USD '000)		Contract value (EUR '000)		Fair value (EUR '000)	
	2010	2009	2010	2009	2010	2009	2010	2009
Cash flow hedges								
<u>USD Sales/Purchases</u>								
Less than 3 months	-	0.69	-	3 000	-	2 063	-	14
3 to 12 months	-	-	-	-	-	-	-	-
Outstanding forward foreign currency contracts								
	Average exchange rate EUR/USD		Foreign currency (USD '000)		Contract value (EUR '000)		Fair value (EUR '000)	
	2010	2009	2010	2009	2010	2009	2010	2009
Cash flow hedges								
<u>Sell USD</u>								
Less than 3 months	-	0.67	-	3 008	-	2 018	-	(70)
3 to 12 months	-	0.67	-	9 025	-	6 047	-	(212)

The Company has entered into foreign currency option and forward contracts to hedge the exchange rate risk arising from the anticipated future transactions associated with the Company's sales and purchases in USD during 2010.

NAFTA a.s.
NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

b. Commodity Price Risk

The Company is a party to framework agreements for the purchase of services and material related to underground storage facilities of natural gas and natural gas and oil production. In addition, the Company enters into contracts for oil and natural gas sales and underground storage of natural gas. The Company uses commodity derivative instruments to reduce risks related to changes in oil and natural gas prices.

The following table details the swap and option commodity contracts designated and evaluated as effective hedge, outstanding at the balance sheet date:

Outstanding swap and option commodity contracts		Average swap/option price		Contract value in USD '000		Fair value (EUR '000)	
		2010	2009	2010	2009	2010	2009
Cash flow hedges							
Crude oil	USD/bbl	-	78.75	-	6 253	-	(60)
Heavy oil	USD/t	-	460.75	-	4 600	-	(50)
Light oil	USD/t	-	632.50	-	2 702	-	(4)
<u>Sell crude oil</u>							
Less than 3 months				-	1 563		
3 to 12 months				-	4 690		
<u>Sell heavy oil, light oil</u>							
Less than 3 months				-	1 826		
3 to 12 months				-	5 476		

The Company has entered into swap and option commodity contracts to hedge the market risk arising from crude oil price changes in anticipated future transactions associated with the Company's sales in 2010.

As of 31 December 2010, the aggregate amount of unrealised losses under swap and option commodity contracts deferred in the hedging reserve relating to these anticipated future purchase transactions is EUR 0 (2009: EUR 114 thousand).

c. Interest Rate Risk

The Company's operating income and operating cash flows are independent of changes in market interest rates. The Company has no significant interest-bearing assets other than cash and cash equivalents. In relation to a drawn long-term loan, the Company entered into an interest rate swap in 2010 to hedge against the risk of interest rate volatility.

The sensitivity analysis below has been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the balance sheet date. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the balance sheet date was outstanding for the whole year.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Company's profit for the year ended 31 December 2010 would have increased or decreased by EUR 65 thousand (2009: change EUR 62 thousand). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings. Due to the concluded interest swaps as of 31 December 2010 the Company's exposure to interest rates was virtually reduced to zero in the next periods.

In the interest rate swap contracts the Company undertook to exchange the difference in interest between fixed and variable interest rates calculated from notional principal amounts that reflect the timing and amounts due under the loan agreements. These contracts allow the company to eliminate the risk that cash flow will be exposed to variable rate debt instruments. The fair value of the interest rate swaps at the end of the accounting period is determined by discounting future cash flows using curves at the end of the accounting period and credit risk arising from the contract as specified below.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS
For the year ended 31 December 2010
(Thousands of EUR)

The following table details notional principal amounts and other terms and conditions of interest rate swap contracts, outstanding as at balance sheet date.

Outstanding Interest Rate Swap Contracts	Notional Fixed Interest Rate (%)		Notional Principal (EUR '000)		Fair Value (EUR '000)	
	2010	2009	2010	2009	2010	2009
Cash Flow Hedge (receipt of a variable interest rate and payment of a fixed interest rate)						
Less than 1 year	1.72	-	12 000	-	6	-
From than1 to 2 years	1.72	-	12 000	-	6	-
From than 2 to 5 years	1.72	-	12 000	-	5	-

d. Credit Risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in a financial loss to the Company. The Company has adopted a policy of only dealing with credit-worthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

Derivative counter-parties and cash transactions, if any, are limited to high credit quality financial institutions. The Company does not have policies that limit the amount of credit exposure to any one financial institution.

e. Liquidity Risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit lines and the ability to close out market positions. The Company maintains sufficient cash and credit lines, and has no open market positions other than open positions from derivative transactions.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows during the term of the loan agreement.

	Weighted average effective interest rate	Less than 1 month	1 – 3 months	3 months to 1 year	1 – 5 years	Total
2010						
Non-interest bearing	-	20 124	38	601	1 141	21 904
Variable interest rate instruments	1.31	1	62	1 051	12 297	13 411
2009						
Non-interest bearing	-	14 447	187	63	374	15 071
Variable interest rate instruments	1.87	19	3 063	9 259	-	12 341

The Company has access to financing facilities. The total unused amount of such facilities is EUR 52 078 thousand at the balance sheet date (2009: EUR 16 000 thousand). The Company expects to meet its other obligations from operating cash flows and maturing financial assets.

The following table details the Company's liquidity analysis for its derivative financial instruments. The table has been drawn up based on the undiscounted net cash inflows/(outflows) on the derivative instrument that settle on a net basis and the undiscounted gross inflows and (outflows) on those derivatives that require gross settlement. When the amount payable or receivable is not fixed, the amount disclosed has been determined by reference to the projected interest rates as illustrated by the yield curves existing at the balance sheet date.

Option commodity contracts	(9)	(19)	(86)
Total	(32)	(52)	(298)

(2) Fair Value Estimation

The fair value of publicly traded derivatives and trading and available-for-sale securities is based on quoted market prices at the balance sheet date. The fair value of interest swaps is calculated as the present value of the estimated future cash flows. The fair value of interest-currency swap contracts is determined using foreign exchange market rates at the balance sheet date.

In assessing the fair value of non-traded derivatives and other financial instruments, the Company uses a variety of methods and market assumptions that are based on market conditions existing at the balance sheet date. Other techniques, mainly estimated discounted value of future cash flows, are used to determine fair value for the remaining financial instruments.

The face values less any estimated credit adjustments for financial assets and liabilities with a maturity of less than one year are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate available to the Company for similar financial instruments.

According to the Company's management, carrying amounts of financial assets and liabilities disclosed in the financial statements at amortised cost approximate their fair value.

22. RECONCILIATION OF SEPARATE STATEMENT OF CHANGES IN EQUITY AND CASH FLOW STATEMENT PREPARED IN ACCORDANCE WITH PREVIOUS ACCOUNTING PROCEDURES EFFECTIVE IN THE SLOVAK REPUBLIC AND SEPARATE STATEMENT OF CHANGES IN EQUITY AND CASH FLOW STATEMENT PREPARED IN ACCORDANCE WITH IFRS AS ADOPTED BY THE EU AS AT 31 DECEMBER 2009

Reconciliation of the equity as at 31 December 2009 is as follows:

31 December 2009	Registered capital (including treasury shares)	Capital funds	Hedging derivative reserve	Property revaluation reserve	Profit for the current year	Profit/(loss) from previous years	Total
Amounts according to the statutory financial statements under SAS	102 490	45 676	(309)	-	72 902	413 743	634 502
IFRS adjustments:							
Valuation of property, plant and equipment	-	-	-	738 522	1 870	(585 828)	154 564
Financial investment in Pozagas	-	(24 213)	-	-	-	764	(23 449)
Other financial investments	-	-	-	-	(10)	(201)	(211)
Distribution of statutory profit from previous years	-	-	-	-	(216)	216	-
Deferred tax	-	-	-	(140 319)	(355)	111 307	(29 367)
Total IFRS adjustments	-	(24 213)	-	598 203	1 289	(473 742)	101 537
Amounts according to the separate financial statements under IFRS	102 490	21 463	(309)	598 203	74 191	(59 999)	736 039

The effect of the change in the accounting standards had no significant impact on the cash flow statement.

In the separate IFRS financial statements, property, plant and equipment are recognized in revalued amounts, since NAFTA decided to apply the revaluation model pursuant to IAS 16 as its accounting policy for the valuation of these assets in the past periods, while the difference between the revaluation of assets and original historical costs were recognized as revaluation reserves in equity (see Note 3). The total amount of the distributable profits was recognized in accordance with the previous accounting procedures valid in the Slovak Republic earlier than pursuant to IFRS.

23. SUPPLEMENTARY INFORMATION TO THE SEPARATE FINANCIAL STATEMENTS ACCORDING TO THE STATUTORY REQUIREMENTS

23.1. Consolidated Financial Statements

NAFTA prepares consolidated financial statements for consolidated group which includes NAFTA as a parent company and other business companies, in which NAFTA holds at least a 20% share in their registered capital. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted for use in the European Union.

After the consolidated financial statements are approved by Company's bodies and the General Meeting, the financial statements are available for inspection in the Company's registered office (Votrubova 1, 821 09 Bratislava) and at the Commercial Registry of the District Court Bratislava I, administered by the Registration Court (Záhradnícka 10, Bratislava).

NAFTA is a subsidiary of Slovenský plynárenský priemysel, a.s., with the registered office in Bratislava, Mlynské nivy 44/a, which holds a 56.2% share in the Company's registered capital. SPP prepares consolidated financial statements in accordance with International Financial Reporting Standards as adopted for use in the EU.

After SPP's consolidated financial statements are approved by SPP's bodies and the General Meeting, the financial statements are available for inspection in SPP's registered office (Mlynské nivy 44/a, Bratislava) and at the Commercial Registry of the District Court Bratislava I, administered by the Registration Court (Záhradnícka 10, Bratislava).

23.2. Unlimited Guarantee

NAFTA is not a partner with unlimited guarantee in any business company.

23.3. Members of the Company's Bodies as of 31 December 2010:

Board of Directors:	Chairman	Dipl. Ing. Jean-Luc Rupp
	Vice-Chairman	Dipl. Kfm. Alexander Spies
	Member	Dr. Michael Fipper
	Member	Ing. Jean-Pierre Mata
Supervisory Board:	Chairman	Ing. Daniel Guspan
	Vice-Chairman	Dr. Achim Saul
	Member	Prof. Ing. Vladimír Bálež, DrSc.
	Member	Ing. Ľubomír Červeňák
	Member	Ing. Peter Čulen
	Member	Peter Dubaj
	Member	Ing. Roman Krasňanský
	Member	Ing. Milan Šoták
	Member	Ing. Peter Šefara
Top Management:	General Director	Ing. Martin Hollý
	Director of Underground Gas Storage Division	Ing. Ladislav Goryl
	Director of Exploration and Production Division	Ing. Jozef Levoča
	Director of Workover and Drilling Division	Ing. Marián Marcin, PhD.
	Director of Service Division	Ing. Michal Ševera
	Director of Economic Section	Ing. Szilárd Kása
	Director of Sales and Marketing Section	Mgr. Peter Kučera
	Director of Human Resources Section	Ing. František Kajánek

24. EVENTS AFTER THE BALANCE SHEET DATE

From 31 December 2010 up to the date of the approval of these separate financial statements there were no significant events that would significantly impact the assets and liabilities of the Company.

25. PREPARATION OF THE SEPARATE FINANCIAL STATEMENTS

The separate financial statements on pages 2 to 35 are signed on 27 January 2011 on behalf of the Board of Directors by:

Dipl. Ing. Jean-Luc Rupp
Chairman of Board of Directors

Dipl. Kfm. Alexander Spies
Vice-Chairman of Board of Directors

Signature of the person responsible for preparing the financial statements:

Ing. Szilárd Kása
Director of Economic Section

Signature of the person responsible for bookkeeping:

Ing. Ivana Kocáková
Head of Financial Accounting Department
