Notes:

Required stock level according to point 3.6.1. b) of the Technical Conditions of Acces and Connections to the Storage Facility of NAFTA a.s.: at least 70% of the maximum Working Volume
 The date when the required stock level should be reached: 31.10.2022

This Plan represents only a forecast and the available rates may vary depending also on the pattern in which the Customers use their contracted Storage Capacity. The SSO updates the values of available rates well in advance during the year as necessary, but no later than 15 (fifteen) days before the beginning of the period to which the update applies.
